- Hydraulic Hose Support.
- Dual Steps available.
- Full Tine visibility
- Independent grapple for securing uneven loads
- Heavily reinforced quick attach
- Cylinder protection with checkered plate, also protect hydraulic hoses.
- Removable, replacable tines.
- Grapples can be removed in less than ten minutes, for standard rock bucket use.
- FULLY CUSTOMIZABLE

Manure / Tine Grapple

This attachment is mainly designed in moving straw or manure. The tines allow the bucket to grab large loads without the inconvenience of a cutting edge. Also features the independent grapple system for securing uneven loads.

Versatile design, great usability
